Although this file was scanned from the highest-quality microfilm held by Boise State University, it reveals the limitations of the source microfilm. It is possible to perform a text search of much of this material; however, there are sections where the source microfilm was too faint or unreadable to allow for text scanning. For assistance with this collection of student newspapers, please contact Special Collections and Archives at [archives@boisestate.edu](mailto:archives@boisestate.edu).

# BJC ROUNDUP

MAY 5, 1959  
BOISE, IDAHO

## SPRING TEA

Mr. Sheldon, chats with visitors at the recent spring tea, sponsored by the Associated Women Students. The tea is an annual event, during which high school senior girls from the local, area, Meridian, and Nampa schools, are invited to tour the BJC campus, meet instructors, and receive information about the school program. The tour concludes with a tea in the Student Union ballroom.

## Second Run-off Election Gives Residential Office to Barry Bloom

Barry Bloom, the office of president of the student body reached a record in the history of the college during the past week, as the two presidential candidates, Barry Bloom and Dick Johnson, ran neck and neck through

an election and a run-off, both of which ended in a tie.

The second run-off gave the student body presidency to Barry Bloom with a margin of about 60 votes.

Barry Bloom, formerly from Elktion, Oregon, was married last August to BJC alumna Pat Warner. They live in the Campus apartments.

The incumbent officers entertained the officers elect at a formal dinner during the course of the run-off votes. Both candidates for the 1959-60 presidency were invited, since the dinner was held before the final election. At the dinner, the 1958-59 student body president, John McNeil, reviewed the accomplishments of the present student council year.

Mr. William Gottenberg, BJC vice president, praised the student council for its fine work during the year.

President Chaffee spoke on BJC's history and purpose.

## Valkyries Set Annual Hell Week for New Pledges

During the end of the six-week pledging period for new members of the Valkyries, the Valkyries have designated this as "Hell Week" for

pledging. During this week, pledges must wear the red and white Valkyrie uniform, sing the Valkyrie song, and as a final test, carry a raw egg with them. The signatures of all outgoing Valkyrie members.

A pledging supper and initiation ceremony will be held Thursday, May 7, at the home of Kay. At that time new officers for the 1959-60 school year will be elected.

The Valkyries are also planning a Mother-Daughter dance for May 16 at the Stratton at the Boise Municipal air-

## "Hobo March" Set for Friday, May 8

The annual "Hobo March" sponsored by the vocational shops department, will be held this Friday.

Students from this department will dress as hobos and walk the streets in search of contributions to be applied to scholarships for vocational students.

The "hobos" will finish their march in Capitol park where they will vie for the honor of being named as "dirtiest hobo," "most honest," "best moocher," and the "best."

## REVEREND KIME TO SPEAK AT DEVOTIONAL

Reverend Carl Kime of the Church of the Brethren will speak at the weekly devotional Wednesday, May 6, at 9:50, in the auditorium.

## Communications Class Visits Gold Mining Rig

The class in communication skills, of the vocational department, made a field trip to Centerville last week to inspect the gold mining dredge owned by Mr. Fred Baumhoff of Boise. The object of the trip was to gather material for a theme paper.

Accompanying the group was Dr. Gardner, instructor, and Mr. Baumhoff, who is considered to be one of the state's foremost authorities on mining techniques.

To the students of BJC who supported me so faithfully, I would like to acknowledge my appreciation. I will do my best for the betterment of BJC.

Barry Bloom, ASB Pres.

## BJC To Offer Courses On Four-Year Level

With a view to expanding Boise valley's local facilities in the field of higher education, the first step in negotiations has been taken to offer courses at BJC which are on the four-year level. The administrative staffs of Boise Junior college and the University of Idaho, headed by Presidents Chaffee and Theophilus, realizing the opportunity for public service to the residents of Boise valley, began formulating plans for the four-year project in December, 1958, and the formal announcement of its proposed September opening—under the name of the Adult Education Center—was made to the press by the U. of I. on April 16.

## AWS Sponsors Annual Spring Tea

The annual AWS spring tea held for graduating senior girls in the Boise valley was given Thursday, April 30, at Boise Junior college.

Girls from Boise and Borah high, Nampa, Meridian, St. Teresa's Academy and Kuna assembled in the auditorium at 2:30 to hear Jan Gantner, officer of AWS, introduce the club president, Mrs. Sue Meyer, who was mistress of ceremonies for the program.

Dianne Coy gave the girls a rundown on the freshman women's organization, B-Cubes. Mrs. Painter, the dean of women, welcomed the girls and told them that they could take advantage of her office any time they wished for information or help. The credit rating and standing of the college were discussed by Dr. Chaffee.

Entertainment during the program was provided by Deana McAfee, who performed a can-can, Betty Fulcher, who entertained the girls on the piano, and Sharon Paul, who gave a 10-minute humorous speech on "Mail, Male Men."

After the program, the girls were taken on tours of the college and returned later to the Student Union.

## Graduation Announcements

Printed graduation announcements have not been received. The Roundup will give notice on when they may be picked up.

Sophomores may pick up their announcements, upon their arrival, in the registrar's office.

The following explanation of the forthcoming Adult Education Center was prepared by Dean Chatburn.

For some time there has been a demand for upper division courses at Boise Junior college. It is true that such courses have been offered in Boise in the past by the University of Idaho in cooperation with the Independent School district; however, these courses have been largely in the area of teacher education, and many teachers have expressed a need for better grounding in subject matter areas.

At its December 1959 meeting, the U. of I. board of regents authorized university officials to examine the feasibility of establishing a center. This led to a conference in February, held in President Chaffee's office and attended by Dr. Walter Steffens, executive dean of the U. of I.; Mr. Harlow Campbell, director of educational

(Continued on page 3)

## Social Committee Votes No Name Band Policy

At a recent meeting of the BJC social committee, the attendance at the spring formal, held April 22, was discussed. A big name band was arranged for by the social committee at an expense of \$750.00. This money should have been made up through ticket sales for the dance. However, the attendance at the dance was very poor considering the potential number of students who could have been there.

Due to these facts, Warren Wilde, chairman of the committee, recommended that this be the last year that BJC contracts for a name band to play for a college

(Continued on page 3)

## CARBURETOR SCHOOL

Thirteen auto mechanic students at Boise Junior college left May 2 to attend a two weeks session of the Carter Carburetor school which began on May 4 in St. Louis, according to Mr. Harold Snell, Auto mechanics instructor. Reading from left to right, front row: George Girard, Pete Lizaso, Melvin H. Cross, Jr., Lanny T. Cook, Bill Moore and George Carstensen, instructor. Back row: W. B. Storer, factory representative for Tracey & Company, distributors; Warren Jensen, Eugene Herzinger, Tom Gluch, Ronald B. Wilkes, Glen Herzinger, Kenneth Coffman and Harold Snell, instructor. Not pictured, but going to the school are Fred Owens, Gary Glenn, and W. B. Carpenter, who is the wholesale representative.

## Auto Students To Attend School In St Louis

Thirteen auto mechanic students at BJC left May 2 to attend a two weeks session of the Carter Carburetor school in St. Louis, Missouri, according to an announcement by Mr. Harold Snell, auto mechanics instructor.

Mr. Snell said that the following students attended this school, which is the oldest and largest of its kind: George Girard, Melvin H. Cross, Jr., Pete Lizaso, Lanny T. Cook, Bill Moore, Warren Jensen, Eugene Herzinger, Tom Gluch, Ronald B. Wilkes, Glen Herzinger, Kenneth Coffman, Gary Glenn and Fred Owens. He added that since this is the largest group ever to attend the school at one time, they prepared a special class for them.

Graduates of this school, Mr. Snell indicated, are always in demand because of the background they have had in tune-up work.

## IN OUR OPINION . . .

If you have cast a glance at your calendar lately, you are uncomfortably aware of the fact that final exams are close at hand.

And, if you have taken stock of where you stand in each of your classes, you know how much studying you must do in preparation for those exams.

If you are aware of both of these factors, you have a good part of the battle won. However, the other half of the battle will be more difficult. You must take these into consideration, take your books in hand, and go to work—Now!

Psychologists have discovered the principle that massed practice is not as effective as spaced practice. Broken down into practical language, this means that starting now and studying regularly and continually until exam time, will leave you better prepared than any one night's continuous cramming.

Another advantage in studying now will be in the wear and tear you can save yourself. Imagine being able to go to bed early the night before that big test! With the boost in morale that will bring, you should be able to pass your tests with flying colors! CB

## POLIO VACCINATIONS . . .

It is not too late to insure your protection against polio, but you procrastinated too long to get it free. The market is now \$1.50 for the series of three or 50c per injection to complete your series. This is a special net-cost charge for vaccine alone plus seven-tenths of one cent per dose to cover administrative expense. This offer is necessarily limited to students and faculty and families—we regret that we cannot extend the courtesy to your second cousins.

By delaying your immunization until the college year ends you can live dangerously a few weeks longer and then be vaccinated in the office of the doctor of your choice. Your student health fee will not then be paying the cost of nurse, office rent, syringes, needles, sterilizers, heat, lights, janitor, taxes and insurance. You can be immunized for probably not more than six to eight times the present cost by waiting.

Time: 9:00 a.m. to 12 m. Mondays, Wednesdays, Fridays  
Place: Health Center

DR. BRUCE C. BUDGE  
College Physician.

S.U.B. Powder room, noon—Spanish club.  
S.U.B. N.E. lounge, noon—Pi Sigma.  
S.U.B. N.W. lounge, noon—German club.

## Dr. Paul Baker Retires From BJC

Dr. Paul E. Baker, who is retiring on June 1 from his work on the staff of Boise Junior college, has accepted a position with the division for field survey of the Presbyterian Board of National missions. He will be occupied with survey work to determine the location of new churches or, as an alternate, with research work among the Indians.

Dr. Baker has expressed his preference for sociological studies of the Indians, possibly in one of the Presbyterian fields in New Mexico or Arizona among the Hopi or the Navajos.

The decision for the assignment of Dr. Baker will be made at a meeting of the advisory committee on field survey around June 1.

Dr. Baker will leave Boise around June 10 for Denton, Texas, where his relatives live and where he graduated from high school. He will make his headquarters there while he works with the Presbyterian Board of National Missions.

He says, "I appreciate the kindness of many friends during my 12 years in Boise and the fine fellowship of administration and faculty at the college. I anticipate coming back some day to renew friendships here. I can see great growth ahead for the city of Boise and for Boise Junior college. This is a wonderful community in which to live."

## New Morrison Hall House Mother Is Featured As Teacher of the Week

Mrs. Bernice Babbitt, new Morrison hall house mother, spent her youth in Kimberly, Idaho. After she was graduated from Kimberly High school, in the first graduating class from the present high school, she went to business school. While in business school she did office work for the school.

## LIBRARY NEWS

Miss Lois Hansen, assistant librarian, has listed several new additions to the BJC library.

For the music lover there is High Fidelity and the Music Lover, Anne Frank, A Portrait in Courage by Ernest Schnabel, is a follow up of Anne Frank's own story. Archaeology and the New Testament, The Ordeal of Woodrow Wilson, and Main Street, USSR, are all interesting books.

## MAY I HELP YOU?

Gretchen Hoff is one of the many Golden E pledges who were seen last week sporting "Help Week" signs. Though this sign was "a la Francals," the purpose was the same. During this week all pledges performed services for members of the faculty and student body at their request.

## Scholarships Available

Four scholarships are currently available to sophomores who plan to continue their college studies. It was announced by Mr. William Underkoffler, chairman of the BJC scholarship committee. They are the following:

The J. H. Nimplot scholarship—There are two Nimplot scholarships of \$300 each for sophomores planning to attend the College of Idaho.

Seattle Pacific College is offering \$300 to a sophomore.

Holy Names college, Spokane, is offering a full-tuition scholarship of \$350 to a sophomore girl who holds a 3.0 or better GPA.

In all cases, the letter of applications are to be made to the BJC committee on scholarship awards, and the applications must be in the hands of the committee not later than May 10.

## Students Appear On KTVB Periscope

Students in the BJC broadcasting class will appear for a 15-minute period each Tuesday afternoon on Nancy Clark's Periscope program. It was announced by Mr. John Woodworth, BJC instructor of speech, radio and television. The weekly appearance of the class will begin on May 5, over KTVB.

The class will continue to present its regular five-minute news spot every Thursday at 6:45 p.m. over KBOL. The news program was started on April 23 and makes comment on the news and coming events at BJC.

## Letter to the Editor

As a gesture of thanks for selection as "Student of the Week" in the April 21 Roundup, Ellen Vance, a student in the creative writing class, sent the following letter.

"My family joins me in a 'thank you' for the courtesy shown in the April 21 issue of the Roundup. Quite casually in the mentioned I had a bit of comment about BJC since it had beginning in our old St. Mary's hall.

"From that chance remark one of the very nicest things has happened to me in a flood of good things from kind people.

"We are very proud of BJC.

Sincerely,  
Ellen Vance

## Health Agents Warn Polio Is On the Move

Although the vaccine which provides protection against polio is effective and available, authoritative surveys show that more than one-third of the nation's population has not protected itself against the disease.

The National Health Agency says that with the introduction of the Salk vaccine in 1955, and paralytic polio cases declined in 1956 and 1957, however, the trend was reversed and there was a 24 per cent increase in the incidence of polio over 1957.

Salk (child and adult) and Salk (adult) are the two types of Salk vaccine. (See Dr. Baker's article on this page of the Roundup.)

## ELECTRONICS EXPERIMENTATION

Cathy Thorne, background, a BJC student in physics, is using a teslacoll to show the property of amplification of vacuum tubes along with the effects of capacitance and inductance, while Tom Lee, left, another student, explains and demonstrates with the versatile oscilloscope of his own design and construction, the many applications of this electronic instrument in the fields of science and industry, and Jack Pantry, right, assists Lee by demonstrating with equipment of his own construction the angular velocity of an electric motor. This is a demonstration of work these students have done out of class in the field of electronics and which they are sharing with their classmates.

Education Loans  
Are Now Available

Applications for the National Student Defense student loan program are now being accepted. Students interested may call for the loan at the office of the secretary of the president, who will help in a filing of the loan.

Students will be given those loans with a superior academic record who have expressed a desire to teach in elementary or secondary schools and also to those students whose academic background indicates a superior capacity for preparation in science, mathematics, engineering or modern languages.

Payment of the loan does not begin until after the borrower has completed his education. It must be repaid within one year after a borrower ceases to pursue a course of study and ends his loan after unless the repayment period is extended. Interest is not paid until the first repayment period.

A bonus of any loan plus interest is cancelled for service as a full-time teacher in a public elementary or secondary school at a rate of 10 percent of the total of the loan plus interest each complete academic year thereafter.

## LEARN PROGRAM

(Continued from page 1)

President Chaffee, Vice President Chaffee, and Dean Chaffee. A conference was devoted to the formulation of a broad policy statement for the program and the coordination of the program with details to be

worked out at a later date. It was agreed that the University will offer upper division and graduate courses for which there is a demonstrated need and that no courses offered by BJC will be duplicated.

The university will not hesitate or object to offering courses on the lower division level, provided BJC does not wish to offer those courses, and does not contemplate doing so.

Courses will probably be in liberal arts and sciences, business, education, and engineering; as well as other areas in which there is a demand. The courses will be offered for credit, when feasible, and will run for a full semester or will be offered as short courses or workshops, according to the nature of the subject and the demand.

Initial courses will be on a trial basis, and undoubtedly, will be few in number when the program begins next fall; however, it is expected that the program will be launched on a solid basis which will be mutually beneficial to the university and BJC and which will lead to consistent growth.

Courses will be taught on the BJC campus and will be scheduled at times which will not interfere with BJC offerings, which will have top priority for space. Very likely the courses will be offered during the late afternoon and evening, with the buildings being in use continuously from early morning to late at night.

It is anticipated that many BJC instructors will take part in the program.

Cooperative sharing of the faculty members' time will be advantageous for both BJC and the U of I, when neither institution

has sufficient courses in certain areas to justify the employment of full-time instructors.

There is a possibility that the Adult Education Center will be expanded to include summer courses in 1960.

In commenting on the Adult Education Center, U of I President D. R. Theophilus said in a press release, "Establishing the program in Boise has been made possible through fine cooperation of Boise Junior college. The enthusiasm of Dr. Chaffee for the program has also been an important morale factor for our people at the university who are working on it."

President Chaffee asserted, "The above statement by President Theophilus is indicative of the outstanding cordiality which has developed as this adult education program has unfolded and augurs well for the future success of the program."

## NO NAME BANDS

(Continued from page 1)

dance. This recommendation was approved by the entire social committee and their advisor, Mrs. Painter.

Warren Wilde expressed his thanks to his committee for their superb work in making the spring formal a success in so many ways. He also wished to thank all those who contributed in any way to the success of the dance.

## CAMPUS QUERY

By Sharon Paul

Question: What activities would you like to see going on between the service clubs?

Verlena Orr: I'd like to see a carnival put on on a large scale where all the service clubs participate.

Jane Edwards: Maybe the service clubs should get together and each donate a little bit to form a joint scholarship.

Cheri Morissette: One big picnic to get people together.

William Malmberg: Build a foot bridge across the Boise river together.

Dick Erwin: I think they should have an annual yacht race down the Boise river between the three men's service clubs.

John Halunen: The service clubs should have a mass picnic.

Wendy Weaver: I'd like to see the service go together and build a bridge across the Boise river.

Bob Gilbert: A good boxing match between the IK's and the Esquires where all the onlookers participated would probably bring everyone a lot closer.

Charlie Brown: If they all practiced sword swallowing it might eliminate a few problems.

Marge Jackson: Gun fights between the men's clubs so the Valkyries could ride in and save everyone.

Jack Bowlin: A softball game every Friday afternoon.

Gary Bennett: The formation of a mutual admiration society between the male and female service clubs.

Golden Z's Elect  
'59-'60 Officers

Ann Rader was named the new Golden Z president for next year at the Golden Z pledge initiation banquet, held at 5:30 Wednesday, April 29, in the Student Union.

Vice president for next year is Sharon Sielaff; secretary, Julia Dewey; treasurer, Vernita Haas; historian, Barbara Goshorn; and publicity, June Schmitz.

These new officers will replace out-going ones for this year, who were: president, Beulah Holmes; vice president, Louise White; secretary, Sandra Kroeger; treasurer, Verlena Orr, and historian and publicity chairman, Maurene Mundorff.

The dinner was the culmination of a six-week pledging period, which ended with "help week," during which Golden Z pledges performed services for the student body.

The Golden Z's will be sponsoring an all-school "Twirp Week" in the near future, during which the women of the student body will open doors, buy cokes and carry books for the masculine set.

CAMPUS  
STYLES

By Sharon Paul

The other day I heard a girl say that there just weren't enough fellows to go around and she probably would die an old maid for lack of supply. Poofle! No woman should ever feel that way. There are more men than women out here in the west. That's one of Idaho's biggest assets. And besides, no woman ever has to be lonely. Some places in Alaska there are about 200 men to one woman. I know, I was there.

So girls, for that trip to Alaska, I suggest C. C. Anderson's as the store to shop for your wardrobe. Go into the sports department and see the "Slack Room." Anderson's surely aren't slack on slacks. There are hundreds of pairs.

For swimming with the seals go to the "Surf and Sand" section.

And be sure to take with you those new 1959 custom style 100% washable White Stag pedal pushers at \$4.95 and \$5.95 a pair. You'll be the envy of the Eskimos.

**IS IT WORTH MY TIME?**

There are practical advantages to summer school.

Among them, is the opportunity to lop off a full semester, sometimes even a full year, from the college course.

Courses are taught on an accelerated basis, with classes meeting daily, but enrollment is small enough so that each student receives a great deal of individual attention.

Credit hours, to a student, are as valuable as money in the bank.

Here are a few suggestions for the summer months:

1. ANY STUDENT can accelerate his course, or make up lost credit hours.

2. ANY HIGH SCHOOL graduate can take a long stride into his college career by gaining as much as twelve credit hours in such courses as English, history, the sciences and mathematics.

3. ANY TEACHER with an elementary provisional certificate can acquire twelve of the eighteen credit hours required for certificate renewal.

4. ANYONE interested in furthering his education is welcome to enroll in the classes listed.

**ADMISSION REQUIREMENTS****CREDENTIALS**

Students applying for admission to the Junior College for the first time are requested to furnish credentials as follows:

1. Personal data on the required Application for Admission blank.
2. If enrollment for the fall term is contemplated, student must meet the regular college entrance requirements as shown in the college catalog.
3. If only summer attendance is planned, student must have the ability to do the work.
4. Non-high school graduates must apply for special consideration.

**ACCREDITATION**

Boise Junior College is fully accredited by the Northwest Association of Secondary and Higher Schools and by the State Board of Education.

**COSTS**

TUITION—per semester hour credit \$7.50

**FEES:**

Applied Music—\$2.50 per lesson.

Business courses—Typing \$6.00; Office Machines \$6.00.

Ceramics—\$6.00

Science courses—General Biology \$6.00; General Chemistry \$6.00; General Zoology \$6.00

Student Teaching—\$5.00

\*Pre-requisite required

†Enrollment limited. Apply to Director of Summer Session for admission

‡This workshop has an afternoon field trip approximately once a week

The College reserves the right to discontinue any course for which there is not sufficient enrollment.

Maximum credit load: 12 semester hours for 10 weeks; 6 semester hours for 5 weeks.

Room abbreviations: C.S.—Campus School; S.—Science Bldg. CerLab—Ceramics Laboratory.

**Broncos Drop NNC, MHAFF****Northwest Nazarene College**

The Boise Broncos dropped the NNC Crusaders in a non-league contest, 6-3, at the BJC diamond last Tuesday afternoon. The Boise nine jumped off to an early lead and coupled errorless fielding with eight base hits to win the game going away. Bob Meyer slammed a triple and drove in two runs for the Broncos.

**Mountain Home Air Base**

Gary Yates led the BJC Broncos to victory over Mountain Home Air Base, as he slammed an eighth inning homer to put the local nine ahead for keeps. The game was never in doubt from the third inning, when Boise jumped Mountain Home pitching for four runs to break the game open. Don Price figured in the Boise offensive attack with a triple and a single in three trips to the plate.

**BATTER UP!**

Catcher and third baseman, Doug Jory.

**Super Sub!**

It's been said that the atomic submarine "Nautilus" stays submerged so long that it only surfaces to let the crew re-enlat.

Perhaps for this reason, the Navy has taken valuable space aboard the "Nautilus" for the only soft-drink vending machine in the entire submarine fleet.

Naturally (or you wouldn't hear about it from us) it's a Coca-Cola machine. And not unexpectedly, re-enlatments are quite respectable.

Rugged lot, those submariners. Great drink, Coke!

Bottled under authority of The Coca-Cola Company by
